

Post-doctoral Position (2 years)

We are seeking an enthusiastic, motivated individual for an ERC Advanced (European Research Council) funded postdoctoral position in the team of Dr Zsuzsanna Izsvak, the head of the Mobile DNA laboratory at the Max Delbrueck Centrum for Molecular Medicine at the Helmholtz Society, Berlin, Germany. You will join an exciting research programme investigating the *“impact of stress-induced transposon activities on human disease”*.

This post will involve the use of cutting edge, including high throughput techniques in molecular and cell biology. Candidates must have a PhD in a relevant biological subject and demonstrable expertise in cell biology, molecular biology and/or bioinformatics. If you have an excellent background in biological sciences, are prepared to face intellectual challenges, you are welcome to apply.

Applicants should have excellent organization and communication skills, and work well as part of a team. High quality peer-reviewed publications are essential.

Check website of the laboratory of Mobile DNA www.mdc-berlin.de/1153597 for recent publications and for running project in the lab.

Fixed-term: The funds for this post are available for 48 months in the first instance with a start date on or around 01 January 2016.

Informal enquiries to Dr. Zsuzsanna Izsvak: zizsvak@mdc-berlin.de

The Mobile DNA Laboratory values diversity and is committed to equality of opportunity.

Max Delbrück Center, Berlin has a responsibility to ensure that all employees are equally treated and eligible to live and work in Germany.
